

DocuWare for Employee Management

Simplify your life in HR. And refocus on strategic programs that help employees.

Your HR team can no longer afford the cost drain, security risks and wasted time of scattered employee records and error-prone manual processes.

Your needs are clear: eliminate paper and disorganized shared drives. Get rid of long email chains and constant status inquiries. Move records into a secure environment to protect employees and your organization.

DocuWare for Employee Management digitizes, centralizes and organizes employees' HR documents within a secure, searchable repository. Within the DocuWare solution, HR teams can use ready-to-go digital workflows and web forms for applicant tracking, hiring, onboarding, performance reviews and time-off request management.

Get ready to deliver a whole new level of expertise, transparency and value to your colleagues.

Now you can:

- Connect all team members involved in candidate selection within a unified, digitized process
- Capture employee onboarding information once and automatically populate other required forms
- Automate onboarding tasks and organize all documents for new hires
- Monitor your performance appraisal timeline with automatic notifications
- Secure employee files in an encrypted repository and protect them with controlled access rights
- Satisfy employee privacy and regulatory requirements
- Improve employee engagement and retention

Get up and running *in just days* when you move to **DocuWare for Employee Management**.

Flexibility for your HR team

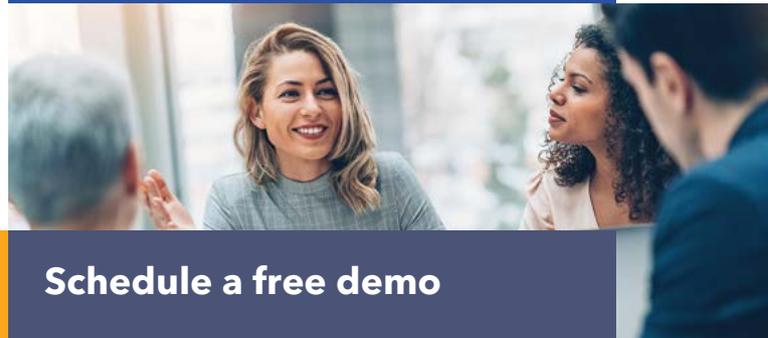

DocuWare for Employee Management provides a fast on-ramp to long-term value. The solution easily adapts to your corporate records management policies and procedures, effortlessly scales as your organization grows, easily adapts to your unique HR workflows, and integrates with other systems. Employee records are compliant and accessible from anywhere and from any device.

Unlock a new level of HR productivity:

- Centralize employee files:** Organize and store all employee records in a multi-tiered folder structure that differentiates access rights among HR, managers and employees – ensuring audit-readiness and compliance with PII, GDPR, EEOC, HIPAA and other regulatory requirements. Apply retention dates to stored employee records.
- Streamline recruitment:** Create job postings, receive and automatically index resumés based on pre-defined skill sets, and use workflow to route applicants for review, schedule interviews and gather applicant feedback. Set up automatic email notifications to candidates.
- Eliminate redundant information capture:** Leverage web forms to capture all required employee data upfront, one time, which can populate other onboarding documents such as tax forms, benefits, and other employee forms.
- Coordinate and automate onboarding:** Create an onboarding checklist of required tasks, including acknowledgement of employment, confidentiality agreements, employee handbooks and initial training plans. Send automatic email notifications to appropriate individuals within your organization. Manage new hire provisioning to provide employees all items needed to start on day one.
- Organize performance reviews:** Customize performance appraisal templates and set dates for automated reviews, while capturing and storing all the information.

DocuWare is best-in-class

- ▶ True multitenant SaaS solution built on Microsoft Azure for high reliability, scalability and security
- ▶ Built for converting manual, paper-centric processes into fast digital workflows
- ▶ Known for ease of use and straightforward implementation
- ▶ Subscription model eliminates upfront investment and provides an immediate ROI
- ▶ Extensive experience with digital transformation within human resources
